- IcePlus™ Accelerated Freezing Function
- Door Alarm
- LoDecibel™ Quiet Operation
- BioShield™ Anti-Bacterial Seal

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

FRENCH DOOR

Wide Open Spaces

Open the three doors and take a step back. You will see a panoramic view of gallon size bins, slide-out shelves, and OptiBin™ drawers to accommodate all your fresh food at eye level. In the freezer, stare in amazement at our deep, spacious drawer. The perfect home for your large frozen turkey.

SmoothTouch Digital Temperature Controls

Ensure precise temperature control in the refrigerator and freezer compartments. Located on the outside of the refrigerator, the touch-sensitive digital controls also allow you to use the IcePlus™ function, monitor room temperature, and reset the water filter.

External Water Dispenser

Fresh, cold filtered water is dispensed on the exterior of the refrigerator to provide convenience and save energy by not opening the door.

Tilt-A-Drawer™

The freezer door tilts downward approximately 45 degrees for easy access to the entire freezer compartment.

Multi-Air Flow Cooling

Vents are located on every shelf for even air distribution and longer lasting food freshness.

OptiBin™ Crisper

Optimizes humidity, extending life of most fruits and vegetables with the innovative Magic Crisper grid. The crisper lid automatically lifts out of the way when the door is opened.

Bio Shield™ Anti Bacterial Seal

Unique feature prevents mold and mildew from building up on the door seal.
